Corporate Governance Statement

(current as at 23 September 2019)

The Board of Directors are responsible for the overall strategy, governance and performance of PolarX Limited (the **Company**). The Board has adopted a corporate governance framework which it considers to be suitable given the size, nature of operations and strategy of the Company.

To the extent that they are applicable, and given its circumstances, the Company adopts the eight essential Corporate Governance Principles and Best Practice Recommendations (**Recommendations**) published by the Corporate Governance Council of the ASX. Where the Company's corporate governance practices follow a recommendation, the Board has made appropriate statements reporting on the adoption of the recommendation. Where, after due consideration, the Company's corporate governance practices depart from a Recommendation, the Board has offered full disclosure and reason for the adoption of its own practice, in compliance with the "if not, why not" regime.

As the Company's activities develop in size, nature and scope, the implementation of additional corporate governance structures will be afforded further consideration.

The Board delegates to management responsibility for implementation of these objectives and for the day-to-day operations of the Company, including, managing the Company's operations and cash flow, evaluating new business opportunities, recruiting staff and complying with applicable regulatory requirements.</p> <p>The Board Charter is available on PolarX's website at www.polarx.com.au</p>

It does not discriminate based on gender, age, ethnicity or cultural background.</p> <p>Given the Company's size and stage of development, it does not believe that a formal diversity policy will provide any measurable benefit to the Company that is not already provided by its existing practices in this area. This assessment may occur more than once each year if there is a change in circumstances that may impact upon the independence of a non-executive director.</p> <p>Individual directors must not participate in assessing their own independence, and must provide to the Board all information relevant to the assessment.</p> <p>In assessing independence, the Board considers all circumstances relevant to determining whether the non-executive director is free from any interest and any business or other relationship which could, or could reasonably be perceived to; materially interfere with that director's ability to exercise unfettered and independent judgment on Company issues.</p> <p>Directors are required to take into consideration any potential conflicts of interest when accepting appointments to other boards.</p>

PRINCIPLE 7: Recognise and manage risk			
7.1	<p>The board of a listed entity should:</p> <p>(a) have a committee or committees to oversee risk, each of which:</p> <p>(i) has at least three members, a majority of whom are independent directors; and</p> <p>(ii) is chaired by an independent director;</p> <p>and disclose:</p> <p>(iii) the charter of the committee;</p> <p>(iv) the members of the committee; and</p> <p>(v) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those meetings; or</p> <p>(b) if it does not have a risk committee or committees that satisfy (a) above, disclose that fact and the processes it employs for overseeing the entity's risk management framework.</p>	No	<p><u>Explanation for Departure</u></p> <p>The Company does not currently have a risk management committee. The Board has considered this matter and decided that the non-compliance does not affect the operation of the Company. This recommendation will be satisfied at the appropriate time in the Company's future.</p> <p>In the absence of a risk management committee, the Board and Audit Committee assume responsibility for overseeing and approving risk management strategy and policies, internal compliance and non-financial internal control and the Board are fully aware of the various risks that affect the Company and its particular business.</p> <p>The Company has a framework in place to safeguard the Company's assets and interests and ensure that business risks are identified and properly managed. This includes procedures and limits to manage financial risk.</p> <p>To assist in discharging this responsibility the Board has in place a control framework which includes the following:</p> <ul style="list-style-type: none"> • annual budget and operating plan, approved by the Board; • regular reporting to the Board on a number of key areas including financial, safety, environment, insurance and legal matters; and • the segregation of duties (where possible). <p>The Board recognise the responsibility for the risk management and control framework and responsibility for relevant internal controls and risk management practices are delegated to the appropriate level of management within the Company.</p> <p>Management, has responsibility for identifying, assessing, treating and monitoring risks and reporting to the Board on risk management.</p>

7.3	<p>A listed entity should disclose:</p> <p>(a) if it has an internal audit function, how the function is structured and what role it performs; or</p> <p>(b) if it does not have an internal audit function, that fact and the processes it employs for evaluating and continually improving the effectiveness of its risk management and internal control processes.</p>	No	<p><u>Explanation for Departure</u></p> <p>The Company does not currently have a formal internal audit function due to the size of the Company and the need to conserve cash.</p> <p>As detailed above, the Board and the Audit Committee oversee the effectiveness of risk management and internal control processes.</p> <p>Under the Company's Risk Management Policy, responsibility for undertaking and assessing risk management and internal control effectiveness is delegated to management. Management is required by the Board to report back on the efficiency and effectiveness of risk management.</p>
7.4	<p>A listed entity should disclose whether it has any material exposure to economic, environmental and social sustainability risks and, if it does, how it manages or intends to manage those risks.</p>	Yes	<p>The Group's principal activity is mineral exploration in Alaska, USA. As such, the Company's risk exposure includes the following risks. A more comprehensive summary of key risk factors is contained in the Offer Document lodged with the ASX on 18 June 2019.</p> <p><u>Exploration and Development:</u></p> <p>There can be no guarantee that the estimates of quantities and qualities of minerals disclosed will be economically recoverable. In addition, substantial expenditures are required to establish mineral reserves and mineral resources through drilling, to develop metallurgical processes to extract the metal from the ore and, in the case of new properties, to develop the mining and processing facilities and infrastructure at any site chosen for mining. Although substantial benefits may be derived from the discovery of a major mineralised deposit, no assurance can be given that minerals will be discovered in sufficient quantities to justify commercial operations or that funds required for development can be obtained on a timely basis. The economics of developing gold and other mineral properties is affected by many factors, including the cost of operations, variations in the grade of minerals mined, fluctuations in metal markets, costs of processing equipment and such other factors as government regulations, including regulations relating to royalties, allowable production, importing and exporting of minerals and environmental protection. The long-term success of the Company depends on its ability to explore, develop and commercially produce minerals from its mineral properties and to locate and acquire additional properties worthy of exploration and development for minerals.</p> <p>Operations are subject to all of the hazards and risks normally encountered in the exploration and development of minerals. Although precautions to minimise risk will be taken, operations are subject to hazards that may result in environmental pollution and consequent liability that could have a material adverse impact on the business, operations and financial performance of the Company.</p> <p><u>Permits and licences:</u> The activities of the Company will be subject to government approvals, various laws governing prospecting, development, land resumptions, production taxes, labour standards and occupational health, mine safety, toxic substances and other matters, including issues affecting local native populations. Amendments to current laws and regulations governing operations and activities of exploration and mining, or more stringent implementation thereof, could have a material adverse impact on the business, operations and financial performance of the Company. Further, the mining licenses and permits issued in respect of the Company's mineral properties may be subject to conditions which, if not</p>

		<p>satisfied, may lead to the revocation of such licenses. In the event of revocation, the value of the Company's investments in its mineral properties may decline.</p> <p><u>Volatility of Metal Prices:</u> The market price of any precious or base metal is volatile and is affected by numerous factors that will be beyond the Company's control. These include international supply and demand, the level of consumer product demand, international economic trends, currency exchange rate fluctuations, interest rates, the rate of inflation, global or regional political events and international events as well as a range of other market forces. Sustained downward movements in metal market prices could render less economic, or uneconomic, some or all of the precious or base metal extraction and/or exploration activities to be undertaken by the Company.</p> <p><u>Environmental:</u> All phases of the mining business present environmental risks and hazards and are subject to environmental regulation pursuant to a variety of international conventions and state and municipal laws and regulations. Environmental legislation provides for, among other things, restrictions and prohibitions on spills, releases or emissions of various substances produced in association with mining operations. The legislation also requires that wells and facility sites be operated, maintained, abandoned and reclaimed to the satisfaction of applicable regulatory authorities. Compliance with environmental legislation can require significant expenditures and a breach may result in the imposition of fines and penalties.</p> <p><u>General</u></p> <p><i>Economic:</i> general economic conditions, movement in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's development and production activities, as well as on its ability to fund those activities.</p> <p><i>Additional requirements for capital:</i> the Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing. Any additional equity financing may dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations. There is, however, no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>

8.1	<p>The board of a listed entity should:</p> <p>(a) have a remuneration committee which:</p> <ul style="list-style-type: none"> (i) has at least three members, a majority of whom are independent directors; and (ii) is chaired by an independent director; (iii) and disclose: (iv) the charter of the committee; (v) the members of the committee; and (vi) as at the end of each reporting period, the number of times the committee met throughout the period and the individual attendances of the members at those) meetings; or <p>(b) if it does not have a remuneration committee, disclose that fact and the processes it employs for setting the level and composition of remuneration for directors and senior executives and ensuring that such remuneration is appropriate and not excessive.</p>	No	<p>Explanation for Departure</p> <p>The Board has not established a remuneration committee because the Board currently fulfills these functions. It is the Board's objective to retain high quality directors' and senior executives. In the absence of a remuneration committee, the Board assesses the appropriateness of the nature and amount of emoluments of such directors and senior executives on a periodic basis.</p> <p>The Board has considered this matter and decided that the non-compliance does not affect the operation of the Company. This recommendation will be satisfied at the appropriate time in the Company's future.</p>
8.2	<p>A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.</p>	Yes	<p>Non-executive directors are paid a fixed annual fee for their services to the Company as Non-Executive Directors. Subject to applicable workloads additional fees may be payable, including for participation on sub-committees such as the Audit Committee or the provision of additional consulting services. Non-executive directors are also eligible to participate in the Company's Share Option Plan.</p> <p>Executive Directors and other senior executives typically receive remuneration comprising base salary or consulting fees and other fixed benefits based on the terms of their respective employment/consulting agreements with the Company. Executive Directors and senior executives are also eligible to participate in the Company's Share Option Plan.</p>
8.3	<p>A listed entity which has an equity-based remuneration scheme should:</p> <p>(a) have a policy on whether participants are permitted to enter into transactions (whether through the use of derivatives or otherwise) which limit the economic risk of participating in the scheme; and</p> <p>(b) disclose that policy or a summary of it.</p>	Yes	<p>Key management personnel are required to comply with the Company's Securities Trading Policy. This policy is available on the Company's website at www.polarx.com.au.</p>
